WYOMING LIVESTOCK BOARD ORDER

In the matter of:

Brucellosis Testing of Imported
Montana Cattle and Bison

)
)
)

Order No. 2008-01

IT IS HERBY ORDERED, **effective July 1, 2008**, the Wyoming Livestock Board has determined that there is a threat from brucellosis in cattle and bison that originate from Montana.

This Order is issued on this 1st day of July, 2008 for the purpose of taking effect on July 1, 2008:

All Test-Eligible Cattle and Bison (sexually intact animals over 18 months of age) from Montana must be tested negative for Brucellosis within 30 days prior to entry into Wyoming.

Cattle and Bison going to a State Approved Livestock Market for sale can be tested on arrival at the owner's expense.

Cattle and Bison going directly to a restricted feedlot (K Lot) are exempt from the testing requirement if they are branded with the K brand on the left hip near the tail-head.

This requirement is in addition to other import requirements already in the Wyoming Livestock Board Import Rules (Chapter 8).

These requirements are being implemented to protect the health of Wyoming livestock and citizens.

This Order is issued pursuant to Wyoming State Statute § 11-18-103. The State Veterinarian is directed to carry out this Order pursuant to § 11-19-101. This Order remains in effect until further notice.

Dated this 1st Day of July, 2008
